Company Overview: Background and Development

In today's increasingly technology driven marketplace, it is critical to keep up with the latest innovations and solutions, in order to make the most of your investments and keep your business moving forward. So whether you are new to working with an IT Partner, or have worked with one for years, with **ST REMI INTERGRAGED SERVICES** you will find cost-efficient support, guidance and the Expertise needed to provide your business with that extra edge that it needs and deserves.

STRIS is a full-service solution provider. Our head office is located in Abuja and we support businesses across multiple cities and states. We place our focus on leveraging our infrastructure and expertise to support a broad spectrum of organisations with rapid deployment and emerging technologies.

Over the years, STRIS has evolved into an advanced solutions provider, focused on servicing customers and creating value through long term relationships that we build. We have established unique service level agreements (SLA's) and fixed but flexible costs based on our customers' needs and budget.

We strive to deliver more efficient, effective and relevant quality services and solutions tailored to the increasingly complex demands of organisations, in order to boost productivity of operations and to maximise value for our customers.

STRIS also strives towards technology that provides a real advantage to a business. The most powerful connection that a business can make is through all its stakeholders. STRIS binds together business and technology.

STRIS provides solutions that enable business and empower our customers with the following:

- Enable you to focus on your business by providing a practical IT solution by creating an environment for success.
- Minimise risk of data loss, downtime, security threats and provide redundancy at the same time, by ensuring your business operations continue through virtualization and automation.
- Improve overall customer service and satisfaction, by ensuring you have the infrastructure in place to continuously engage with your customers.
- Cut operational costs with tailor-made strategies and solutions by assisting you to create (or update) your IT strategy.
- Increase communication between all stakeholders which is essential with all the current dynamic businesses challenges that all businesses face today such as globalisation and increased worker mobility.

Technology is really not, just all about speeding up the process and allowing flexibility, rather it can transform how a business functions and will save the firm both time and money if properly implemented and maintained.

STRIS Business

STRIS is dedicated to doing business in an ethical and sustainable manner to meet the needs of a vast range of businesses and industries. STRIS's businesses range from small and medium enterprises (SMEs) to large global enterprises.

We combine our industry knowledge, expertise and best practice with our clients' needs to design and develop tailor-made solutions dependant on your requirements. We recognise that people are part of IT and that the effective combination of these two, contributes to the success of any business.

As an advanced technology service provider, we keep abreast of the latest technology to securely enhance your business. Our in-depth knowledge and expertise ensure we are able to provide guidance as to what is feasible, practical and cost-efficient while maintaining quality.

STRIS Workplace

At STRIS there is a focus on skills and development. We are dedicated to unlock the potential of all our employees through continuous skill development and in-house training. With the skills development of all our employees, we foster a productive and vibrant workplace in order to accelerate growth.

STRIS's ever increasing workforce is aligned with its rate of growth and is continuously focused on the latest technology to improve the quality of all services and products that we offer.

STRIS Purpose

STRIS is a leader in the Information Technology industry by providing unique, tailor-made and enhanced services through building long term relationships with a wide range of clients. We provide value to all our customers.

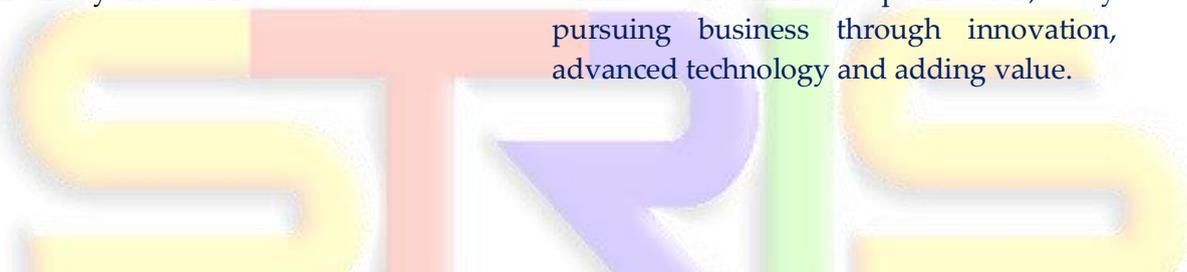

STRIS Vision and Mission

Vision:

STRIS's vision is to become the leader of choice for solutions, regardless of the industry. By going beyond borders to deliver beyond words.

Mission:

STRIS's mission is to build long term relationships with our customers, to provide an exceptional service that falls within customer's specification, by pursuing business through innovation, advanced technology and adding value.

STRIS Core Values
